OLYMPUS
DS-3500

- Integrates into Dragon workflow
- 128 and 256-bit file encryption
- Superior sound quality
- USB rechargeable
- Push-button control

The newest digital dictation recorder of the Olympus product line is the latest generation recorder, and first to achieve a 6-Stars out of 6 Dragon Accuracy score.

Compatible with Windows 10, 8, 7, VISTA, XP, Windows 2003 Server, Windows 2000;
MAC OS X 10.4.11 through 10.8.4, including Mountain Lion, Yosemite, & El Capitan.

This powerful, reliable, easy-to-use recorder has **Pushbutton Controls** for Record, Stop, Play, and Rewind on a single control. This allows for **one-handed operation, without even having to look at the screen** of the recorder while it's operating. A red light in the upper left corner of the DS-3500 will light up whenever you're in the Record mode.

The DS-3500 also features automatic recharging whenever the unit is connected to a USB PORT, automatic e-mailing or FTP of dictation. Using the companion AS-7000 Transcription kit, the transcriptionist will receive automatic notification that new dictation has come in, including the date, time, length of recording, and priority. The entire system is HIPAA compliant.

DS-3500 Features and Benefits

Brilliant color LCD

Large 2-inch LCD shows recording time, battery status, folder, time remaining, and VU-Bargraph (microphone level) dynamically while you're recording.

Superior sound quality

- Innovative super-accurate microphone is independently housed to reduce pickup of movement and bumps.
- Flawless sound reproduction with up to 16Khz/28kbps quality
- 5-star accuracy when used with optional Dragon.

Complete workflow integration

The DS-3500 is packaged with the next-generation Olympus Dictation Management System (ODMS). Send dictation to your transcriptionist in the next office or around the world, or optionally send for automatic transcription using Dragon.

Durable, intuitive push-button control

Redesigned push-button playback controls and three programmable function buttons allow for simple, easy operation.

Longer battery life

The lithium-ion battery is rechargeable through a USB connection and allows for up to 26 hours of continuous recording on a single charge.

Enhanced security features

- Recorder can have 4-digit PIN
- 128 and 256-bit AES encryption of each dictation file
- Ideal for sensitive information, Including medical dictation (HIPAA), legal, and law enforcement

**Just dictate,
download to PC,
done!**
