

VXi Bluetooth® Product Line

Finally, a Bluetooth® headset for the mobile professional!

The VXi VoxStar™ is a best-in-class Bluetooth designed for professional communication in an increasingly noisy world. VoxStar employs the same advanced noise-canceling technology used in VXi's BlueParrott line to eliminate 93% of background noise from users' conversations.

VoxStar UC Bluetooth Office Wireless

- Professional communication headset solution.
- Noise-canceling (93%) and wideband audio minimize distractions and misunderstandings.
