

**Save the spoken word...
discreetly and unobtrusively.**

In today's fast-paced business world, the documentation of conferences, sales discussions, strategy planning, negotiations, arbitration, claims filing and more have become a priority requisite for industry, insurance companies, legal counsels, financial institutions and a growing number of businesses that demand an assurance of accuracy in their day-to-day reporting of activities.

Globally, more and more companies now record meetings and events as common practice. It's the perfect way to retain mistake-free information and eliminate inaccuracies.

Our VEC specialty microphones provide an excellent way to conduct one-on-one conversations or group and conference discussions, discreetly, unobtrusively and with distortion-free clarity. There's one just right for your needs.

CM Series Of Conference Microphones

Though our CM series of conference microphones are small in size they are truly big on performance. Just 2 1/4 inches square in size, the CM-909 and 909S

models feature an omni-directional pick-up enabling them to record conversations from anywhere in a room while monitoring and adjusting to acoustical changes. Placed at the center of a conference table, our CM conference microphones enable you to conduct simultaneous group discussions at normal volume levels with the assurance that all parties will be heard clearly with distortion-free clarity. The VEC CM-909 and 909S come with 10 foot connector cords and 3.5 MM plugs. They're the perfect partners for recording meetings, presentations and discussions.

CM-909

A non battery-powered microphone for use with powered jacks. Available with a 3.5MM plug.
