

**New! Start Stop  
PEDAL POWER  
Keyboard Interface Model KB-PS-2**

- Send any keystroke or keystroke sequence under foot pedal control (e.g., ALT+P, CTRL+C, Up Arrow, F9, Page Up, "Hello", "12345", Shift, ALT, etc.)
- Connects in series with your PC's keyboard
- No software required...sends the keystroke as if you had typed it on the keyboard
- "Y" adapter cable works with either PS-2 (found newer PCs) or 5-Pin DIN (found on older PCs) keyboard connectors.
- Please specify desired keystroke for each pedal: Left, Middle, and Right.
- Field programming possible to change keystrokes by removing cover with two philips screws.

**Only \$145.00 plus shipping (\$6 for UPS Ground, \$14 for UPS 2<sup>nd</sup> Day)  
(USA – 48 States)**
