

Olympus equips legal practices with dictation solutions that save time and money, while keeping information secure. The DS-9500/DS-9000 paired with ODMS Release 7 software helps legal professionals work more efficiently while avoiding inaccuracies. Enterprise security keeps sensitive data safe with 256-bit encryption.

Let Olympus help your law firm create a streamlined workflow to record vital information in high quality digital, then seamlessly route your files to be transcribed and saved.
