Dictate Hands-Free With Digital Clarity with or without a PC in the Immediate Area

HTH Engineering, Inc. is proud to present the

Start-Stop® Waterproof Pathology Dictation Hands-Free System.

It's the perfect tool for Pathology and Research Dictation where hands and eyes need to be focused on your work and equipment needs to be secured against the working environment.

- Wide-spaced waterproof pedal controls Record/Pause, Listen/Rewind, and “NEW” dictation functions, and reliably operates in rough environments.
- Clear, digital dictation with 18-inch Sensitive gooseneck microphone and unidirectional pickup pattern, even up to 2 feet away from the end of the microphone.
- Listen to your dictations through the Olympus DS-7000 Digital Recorder's speaker, or through optional headphones
- Near-instant download of dictation to any transcriptionist (local or via internet) by flipping a single “DICTATE/DOWNLOAD” toggle switch, using the included COMM download kit.
- Dictation can be automatically sent from your local PC, or to any PC located up to 130 feet away with CAT 5 cable, where it's then automatically transferred to your transcriptionist.
- Transcriptionists will automatically receive your dictation via the local office network or via HIPAA-compliant email or FTP if located remotely.

Crystal-Clear Digital Dictation with Gooseneck Microphone and Olympus DS-7000 Recorder
