One of the highest performing, lowest cost digital recorders currently available, the **Olympus DS-2** comes standard with many features that makes it stand out among the competition. It's elegant, sturdy, and compact design gives you the power of a larger, more expensive recorder in or out of the office. From the box the DS-2 is ready to record more than 10 hours of superb quality SP DSS audio with its internal 64MB built-in memory. The DS-2 is simple to create, record, and play files with its easy to use pushbuttons. The DS-2 also includes a USB docking station The DS-2 will also step up and perform in less than ideal conditions with its noise cancellation technology to reduce background noise in your recording and a backlit LCD screen so you can work even in no-light conditions.

This is the ideal recorder for those taking interviews or recording meetings, with its HQ (High Quality, CD-Quality WMA) recording mode, and SHQ (Stereo High Quality) mode with built-in stereo micrphone.

Backlit LCD Screen

High Quality Recording

Noise Cancelling
