Olympus DS-7000 Professional Dictation Recorder

© 2017 All Rights Reserved – HTH Engineering, Inc. Tarpon Springs, FL 34688 TEL: (727) 939-8853 <http://www.StartStop.com>

The Olympus DS-7000 the new standard in voice recording for professionals.

The Olympus DS-7000 Professional Dictation Recorder is the latest and most advanced recorder available today, and enables professionals to dictate reliably, with **automatic emailing or transfer of recordings** within the office by just docking the recorder in the included cradle.

The **256-bit encryption for security** (HIPAA medical use) as well as a **6-Star Dragon Accuracy Score** (for use with optional Dragon NaturallySpeaking or Dragon Medical Practice) make this the most flexible recording system available today, and will dramatically enhance your productivity and daily workflow!

Powerful yet simple:

Just dictate and dock; your dictation can be sent to your transcriptionist automatically.

PRODUCT INFORMATION SHEET

Olympus DS-7000 Professional Dictation Recorder

© 2017 All Rights Reserved – HTH Engineering, Inc. Tarpon Springs, FL 34688 TEL: (727) 939-8853 <http://www.StartStop.com>

FEATURES

Brilliant color LCD

Large 2-inch LCD shows recording time, battery status, folder, time remaining, and VU-Bargraph (microphone level) dynamically while you're recording.

Superior sound quality

- Innovative super-accurate microphone is independently housed to reduce pickup of movement and bumps.
- Flawless sound reproduction with up to 16Khz/28kbps quality
- 5-star accuracy when used with optional Dragon.

Complete workflow integration

The DS-7000 is packaged with the next-generation Olympus Dictation Management System (ODMS). Send dictation to your transcriptionist in the next office or around the world, or optionally send for automatic transcription using Dragon.

Included CR-15 Download/Charging Cradle

- Convenient download: just place recorder into cradle.
- Automatically charges recorder
- Connections for hands-free dictation control, mini-USB, and AC adapter.

Enhanced security features

- Recorder can have 4-digit PIN
- 128 and 256-bit AES encryption of each dictation file
- Ideal for sensitive information, including medical dictation (HIPAA), legal, and law enforcement
