

Streamline legal documentation and improve client service and costs.

Speed legal documentation turnaround times, eliminate transcription bottlenecks, and free support staff to focus on high-value, billable tasks with Nuance® Dragon® Legal Group, the enterprise-ready speech recognition solution for law firms or legal departments.

The time and costs required to prepare legal documentation can result in backlogs, high transcription costs and less time on client service. Manage legal documentation more efficiently and cost-effectively with Dragon Legal Group, and empower professionals to quickly and accurately prepare legal documents, case files and briefs—in the office or visiting clients—all by voice. Reduce reliance on outsourced transcription services. Or use powerful customizations to streamline repetitive, multi-step processes across a legal group or department. With a next-generation speech engine leveraging Nuance Deep Learning technology, Dragon achieves high recognition accuracy while dictating, even for users with accents or those working in open office or mobile environments. Easily deploy and centrally manage Dragon through the Nuance Management Center.

Improve productivity and costs with fast dictation and transcription.

Enjoy accurate recognition of legal terms.

Dragon Legal Group is made even more accurate by a built-in vocabulary trained using more than 400 million words from legal documents. This means legal professionals can dictate contracts, briefs and other documentation 3 times faster than typing, with up to 99% recognition accuracy right from the first use.

Eliminate or reduce transcription time and costs.

Reduce dependencies on outsourced transcription services, or reallocate support staff to more high-value tasks. Using Dragon, legal professionals can transcribe recorded notes or voice files of another single speaker into text quickly and easily back at the PC. Dragon's Auto Transcribe Folder Agent (ATFA) also makes it easy to transcribe batch files of audio recordings for additional time and cost savings.

Benefits at-a-glance

- Boost productivity with faster document turnaround
- Eliminate legal documentation bottlenecks
- Cut expenses by reducing reliance on outsourced transcription services
- Increase efficiency with custom voice commands that execute multi-step processes
- Spend less time on documentation and more time on client service
- Reallocate support staff to higher-value tasks

Built for teams. Built for the enterprise.

Nuance offers flexible volume licensing programs—with no seat counts or auditing—designed to help organizations realize improved productivity at an affordable price.

Automate repetitive workflows to improve efficiency.

Having to type repetitive content or perform multi-step tasks is a drain on productivity. With its powerful voice command capabilities, Dragon makes it easy to automate these tasks. For example, create custom voice commands to insert standard clauses into documents, or create time-saving macros to automate multi-step workflows by voice. Once created, share them with other Dragon users.

Enhance productivity for mobile employees.

Dragon's seamless synchronization across PCs, iOS® and Android™ devices through the cloud means legal professionals can keep up with client and case files from any location. Use Dragon on popular touchscreen PCs, or sync with Dragon Anywhere Group, Nuance's cloud-based, professional-grade mobile dictation solution, and complete legal documents while visiting clients, on the way to court—from anywhere.

Reduce repetitive stress injuries (RSIs).

Reduce the symptoms of RSIs or proactively prevent further injuries. Enable legal professionals to create documents and perform other computer tasks—all by voice, and reduce the physical strain of typing.

Central user administration made easy.

The Nuance Management Center makes it easy to track employee usage of Dragon, redistribute licenses based on usage, and manage or share customizations, including custom words, commands and auto-texts, across multiple users.

To learn more about Dragon Legal Group, call 1-866-748-9536 or visit:
www.nuance.com/dragon.

Citrix® virtualized environments

Deploy on Citrix XenApp® or Citrix XenDesktop® servers where the target application resides, enabling users to dictate from workstations that do not have Dragon installed on them.

Support for Nuance PowerMic

Take advantage of a robust, ergonomic handheld microphone with simplified thumb-control operation, programmable buttons and integrated mouse functionality.

System requirements

- Windows 7, 8.1, 10 (32- and 64-bit), Windows Server 2008 R2, Server 2012 R2, and Server 2016 (64-bit)
 - RAM: Minimum 4GB
