

Dragon Medical One

Commands “What you can say” Cheat Sheet

AUTO-TEXTS- Use standard texts instead of recording manually.

Created by the User these commands can be a short phrase, paragraphs or even page long text that can be edited before and after issuing the command.

For example:

What you say (the command): *Insert Test*

What Dragon Prints: “This is a test of the Emergency Dragon Medical System.”

Every time you say, “*Insert test*” The line above will print on your document.

Note: In this document, italicized text are the ACTUAL commands.

USER SETTINGS- Modify your settings (Options Window)

Commands:
