Want to decrease the time it takes to document in your Veterinary Practice Management Software?

Looking to move to a paperless office?

Dragon® Medical Practice Edition 4 can help with both *and more!*

Dragon Veterinary And Dragon Medical Practice Edition 4 Bundle

As a veterinarian, you know days can be long and patient documentation is never ending.

By speech enabling your practice, Dragon® Medical Practice Edition 4 with Dragon Veterinary is the best solution for veterinarians looking for a way to run their practice efficiently.

Speech enable Avimark, ImProMed, or Cornerstone Practice Management software for Veterinarians with Dragon Medical Practice Edition with Dragon Veterinary. Dragon Veterinary software allows you to efficiently dictate with your voice directly into any field in Cornerstone, AviMark or ImProMed, with fluent, meaningful, personalized narratives that are not cookie-cutter. Six months later you'll be able to recall the full details and provide better patient care. Faster and more efficient than just typing and clicking into your practice management software - instantly types entire paragraphs or templates with your voice using a trigger word (macro).

Dragon Veterinary Improves on the Following Practice Management Software:

- AviMark
- ClienTrax
- Cornerstone
- Infinity by ImproMed
- Animal Intelligence
- DVmax
- e-Vet Practice
- ezyVet
- Intravet
- Vet Office Suite
- Vetter Software
- VIA Veterinary Information Systems
- + More

Also type using your voice into anywhere you would normally type - only use your voice to do it. Create referral letters, type patient notes into your favorite word processor or notepad or email, with every anatomical, pharmaceutical, and veterinary term correctly spelled as you speak it.

With the addition of Dragon Veterinary, Dragon Medical Practice Edition 4 with its 90 medical specialized vocabularies, is further enhanced with over 5700 veterinary-specific terms.

The full power of Dragon Medical Practice Edition is unleashed with these specialty vocabularies for veterinary medicine (such as veterinary orthopedics, oncology, radiology) and is now available for your practice!
