How to turn off User Account Control in Windows 7

1. Click on Start….Control Panel… and you’ll see this view:

![Control Panel view](image)

2. Click on “Review your computer’s status” under SYSTEM and SECURITY section. You’ll see this screen:

![User Account Control Settings](image)

Set the slider to “Never notify”, then click OK.
3. You will see this screen:

![Image of the Control Panel with Action Center open]

Click “Restart this computer” for changes to take effect.

That’s it!
