©2019 All Rights Reserved – HTH Engineering, Inc. Tarpon Springs, FL 34688 TEL: (727) 939-8853 <http://www.StartStop.com>

SpeechExec Pro Transcription Set 7277 is a powerful and user-friendly digital transcription system by Philips that turns your computer into a highly sophisticated transcription machine.

Providing a whole range of benefits to the busy transcriptionist, the software streamlines communications and allows you to organize recordings clearly and transparently. Together with a set of ergonomic accessories, SpeechExec Pro Transcription Set 7277 is the solution that sets the pace in today's fast-moving business world.

Key Features at a glance:

- Ready out of the box for Speech Recognition Software. So it seamlessly integrates with Nuance's Dragon NaturallySpeaking Software.
- A visual workflow management interface enables priority documents to be transcribed in a prioritized order.
- Powerful sort/filter options for all dictations.
- All relevant dictation data is available during transcription. Such as the length of the dictation, the author name, the key words and the assigned priority status.
- The SpeechExec Pro Software efficiently organizes and helps the transcriber plan out workloads.
- Ergonomic Foot Control can be used to operate transcription functions.
- Lightweight and comfortable earphones reduce physical stress and provide Excellent DSS sound quality.
- Software allows you to automatically transfer dictation files via network, e-mail, and/or using FTP (File Transfer Protocol).
- "New job" alert feature informs you when new dictations come in.
