Quick Setup Guide for Start-Stop® Universal Transcription Software, Standard Edition

(for more detailed setup information, you may refer to the Instruction Manual in Adobe PDF format, located in the Documentation folder of your CD-ROM) INSTALLATION INSTRUCTIONS

• Close all open applications on your PC, and temporarily disable all Anti-Virus and Anti-Spyware software. Then Insert the Start-Stop Installation CD-ROM into your computer (or click download link if internet download). You do not need to disable Firewalls. The Start-Stop Installation Software should begin automatically after several seconds:

Start Stop Universal Transcription System Setup		
	Welcome to the installer for Start Stop Universal Transcription System 12.00.00. It is strongly recommended that you exit all Windows programs before continuing with this installation. If you have any other programs running, please click Cancel, close the programs, and run this setup again. Otherwise, click Next to continue.	
< Back Next > Cancel		

Please follow the on-screen instructions, and answer "OK" or "Yes" to questions asked. When the FINISH button appears, **be sure to** <u>restart</u> your PC.

If the Install Software did not come up on the screen automatically as described, then you will need to <u>manually</u> launch the installation. Open "My Computer," select the CD/DVD Drive with the Start-Stop disk in it, then double-click on "setup.exe" to install.

1) Launch the Start-Stop Universal Transcription software by clicking on the icon on your desktop:

The first time you run the program, you will be asked to select a pedal:
