SPECIFICATIONS AND CONTENTS:

Start-Stop™ Digital Wireless 8-Channel Conference Microphone Recording and Transcription System

Description follows for our digital wireless microphone recording solution for conference room (e.g. arranged as President, Witness, Respondent, and 2 long tables).

The RevoLabs® Digital Secure Wireless microphones included are ultra-reliable, clear, professional gear, impervious to interference, and encrypted for security, especially in electrically environment, where interfering VHF/UHF walkie-talkies and other radios & cell phones would render normal “audio professional grade” equipment useless. They are the best conferencing technology available today. No wires, total flexibility in placement for any meeting.

The conference mikes will pick up every utterance, every syllable of what’s being said at the table, podium or anywhere else, with ability to separate conversations into as many as 4 tracks

Perfect Wireless Solution for **courtroom recording, depositions, hearings, boardroom meetings, city council meetings, seminars, expert panels, focus groups, and more!**

This state of the art wireless recording system was custom designed to be used in a large room or courtroom. It features the ability to record up to four channels in crystal clear fidelity, is quick to set up and tear down.

Here is a description of each major component:

1. Revolab Executive HD™ 8-channel Secure Wireless Conference Microphone System

The Revolabs base unit system will capture crystal-clear sound from each participant in the conference room over a 100 foot range. The microphones transmit a digital 128-bit encrypted signal on an exclusive “DECT” frequency band allocated by the FCC, and is impervious to interference, cell phones, and wireless networks. It's totally secure so no one outside the room can capture or listen to the conversation. This is the same system in use in the 9th US District Court, and many other courtrooms. Quality and clarity are stunning, with no fading or breakup under any conditions.

8 Microphone/4-Channel System

Executive HD 8-Channel System shown with Charger Base, and Directional and Omnidirectional HD Wireless Microphones with R44 Recorder.

Microphones can be supplied in Directional and Omnidirectional models (any mix specified).

2) Start-Stop™ 8-Channel Mixdown/Heavy Duty Interconnecting Cable Assemblies, for Roland R44 Recorder

3) Roland R44 Four-Channel Solid State Recorder (see <http://www.startstop.com/r44.asp> for detailed specifications)

The Roland R-44 Four Channel Recorder comprises a state-of-the art, reliable, extremely high quality recording system that will capture every whisper or voice, even in less than optimal environments.

Features like real-time confidence monitoring via headphones and “live” VU bar graphs, individual gain and monitoring controls, ability to cycle through each channel to hear the microphone you want, AC and battery-backup operation, and built-in microphones make this the best, most reliable unit available today for courtroom recording.

The recordings can be quickly downloaded to any Windows PC via the SD Memory Card, as WAV files (a 32GB SD memory card will record 377 minutes of CD-Quality audio x 4 channels).

The recorded audio files from the Roland system, consisting of four WAV files (Windows playable) audio files, can be saved to your PC, and converted to MP3 for IPODs, or burned to a low-cost CD (Data or Audio compact disc) for archiving and/or distribution.

Roland™ R-44 Solid-State 4-Channel Recorder

4. Start-Stop 4-Channel Transcription System

(See www.startstop.com/sst4ch.asp for detailed specifications)

The unique Start-Stop 4-Channel Transcriber, compatible with the [Roland R44](#), provides professional grade four-channel transcription based on our Start-Stop UNIVERSAL Transcriber, a trusted name in digital transcription. Listen to any combination of channels: single channel, multiple channels, or all channels while controlling the recording with the foot pedal. This setup is familiar for professional transcriptionists and is easy to learn for beginners.

Start-Stop 4-Channel Transcription Software on CD-ROM, 3-Pedal USB Footswitch, Spectra PC Headset, Online/CD User Manual, Concierge Technical Support, 1-year Warranty. Compatible with Windows 8 (all versions except Windows Tablet RT), Windows 7 (32 and 64 bit CPUs and OS, all versions) VISTA, XP/XP Pro, 2000.

Convenient, Powerful, Easy-to-Use Channel Playback Control

Exclusive Artificial Intelligence interface automatically Matches up Recordings from the recorders for Playback

User-Settable Hotkeys Control which channel(s) are played back

You can label each microphone channel for that particular meeting

Convenient hotkey for "ALL" Channels at once playback

You can choose which channels you consider "Active" in your "ALL" group.

Convenient hotkey allows cycling Through 1, 2, 3, 4, ALL channel

Exclusive SYNC Adjust Bar allows Instant echo removal in a large room, Or sync correction for any recording

Active Channels show as Red Lights. Clicking with your mouse on any channel Turns it on by itself for "ZOOM" to that microphone; Clicking on the Green Triangle returns to "ALL" mic playback

Hot Key	Location	Active	*All* Presets
1 + ALT	1 Main Podium	<input type="checkbox"/>	<input checked="" type="checkbox"/> 1
2 + ALT	2 Comission-Right	<input type="checkbox"/>	<input checked="" type="checkbox"/> 2
3 + ALT	3 Audience Mic	<input type="checkbox"/>	<input checked="" type="checkbox"/> 3
4 + ALT	4 Public Mic	<input type="checkbox"/>	<input checked="" type="checkbox"/> 4
5 + ALT	5 All	<input checked="" type="checkbox"/>	
6 + ALT	↓ Cycle		

- **Full Bookmarking and Labelling:** Bookmark up to 16 spots in a single recording.
- **Customized Hotkeys:** Set hotkeys to fit your transcription needs, label microphones, and easily switch between channels.
- **Sync Adjust Bar:** Easily sync up microphones to remove echoes in large, hollow rooms.
- **Automatic File Synchronization:** The program's artificial intelligence automatically syncs the two stereo audio files created during the recording process.
