Up to 99% accurate with nearly 80 specialty vocabularies

Dragon Medical sets the standard in voice recognition software with top-notch accuracy, EMR support, vocabularies for over 80 specialties, regional accent support, and supports HIPAA regulations. Dictate directly into Windows based EMRs for more complete and accurate patient records faster than most people type—reduce costs and increase the quality of care.

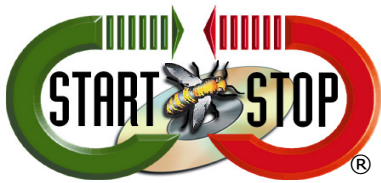

Version 10.1 includes new shortcuts for searching medical information on the web. 10.1 Also includes support for Windows 64-bit platforms, more powerful capitalization rules, Dragon medical template libraries, microphone sleep mode, and more options for hidden mode.

Includes Start-Stop Transcription Made Easy

Start-Stop Transcription Made Easy increases the speed and accuracy of your Dragon dictation by allowing you to quickly and easily correct mistakes with foot pedal control. For a limited time this \$149 value is included with every purchase of Dragon Medical 10.1!

HTH Engineering, Inc. is a Dragon Medical Premier Partner, a certification granted by Nuance only to dealers most qualified to offer continuing support and product information. Are you looking for advanced training, implementation, or scripting support? You've found the right place.

Small Practice Edition

Dragon Medical 10 for Small Practices is a cost-effective solution for small practices and clinics. Small Practice Edition has the same accuracy, workflow enhancements, and ease of use as regular Dragon Medical 10. However, Small Practice Edition does not include Citrix support, radiology or pathology vocabularies, correction-only profiles, or hidden mode. Also, Dragon 10 Medical Small Practice Edition is not an option for hospitals or clinics associated with a hospital.
