Optimize your workflow

with a professional document-creation solution

The Transcription Set is a digital document creation solution specifically designed to make transcription easy and intuitive. The ergonomic accessories and the innovative SpeechExec Pro workflow software let you manage your jobs easily.

Comfortable and reliable

- Ergonomic design for comfortable use even when used over extended periods
- Fast and efficient playback control for quicker and more accurate transcriptions
- Lightweight stereo headphones for enhanced wearing comfort

Enhance your productivity

- SpeechExec workflow software for efficient data management
- Priority setting for getting urgent recordings processed first
- Individual sort and filter options for easy file organization

Designed for professionals

- Geared for Dragon NaturallySpeaking speech-recognition software
- Seamless integration into Philips digital dictation solutions

Highlights

Ergonomic foot control

The foot control was developed in cooperation with hospital ergonomists and day-to-day power users to ensure a perfectly smooth transcription process with minimal physical strain. Magnetically controlled contact switches, rugged pedals and a waterproof design make it extremely durable and give the device and very long life.

Fast and efficient playback control

Start, pause, rewind and fast-forward audio files with only a slight movement of the foot tip, keeping your hands free for uninterrupted typing.

Professional headphones

Lightweight, under-the-chin-style stereo headphones designed to deliver excellent sound quality, with soft ear cushions for enhanced wearing comfort.

SpeechExec Pro software

The SpeechExec Pro software organizes the workflow of dictation files and resulting documents between author and transcriptionist and allows you to monitor the status of your work.

Priority setting

With the included priority-setting option, urgent recordings can be prioritized. This guarantees that important dictation files will be identified at a glance and get processed and delivered first.

Individual sort and filter options

SpeechExec Pro Transcribe enables users to search for specific dictation files or filter their dictation list by user-definable criteria. Furthermore, the easy-to-use list-sorting options for single and multiple dictations guarantee a quick overview of dictation files.

Geared for speech recognition

The seamless integration of Philips dictation recording devices and the direct interface to Dragon NaturallySpeaking Professional speech recognition software guarantee superb audio quality, high recognition accuracy, and easy hardware administration.

Seamless integration

The transcription set can be seamlessly and easily integrated into existing Philips digital dictation solutions.

When you purchase the
Philips LFH7277 Pro Executive
Transcription Kit from StartStop.com you
get these added bonuses:

Unlimited Tech Support, with deluxe installation support via telephone and GotoMeeting®.

Once you have made a purchase, we can walk you through step-by-step over the phone and even set it up for you*, during setup, installation, or use.

Unlike some companies who charge for VIP Care* for example, "T****gear

We think you are already a VIP and won't charge you extra because of it.

*For those customers who are using high speed internet connections, a new form of tech support is now available. This new way of providing tech support utilizes GotoMeeting®. GotoMeeting allows the tech support technician to view your computer remotely and allows them to assist you just like they were sitting right in front of your computer.
