## Dictate Hands-Free With Digital Clarity without or without a PC in the Area

**Crystal-Clear Digital Dictation with Gooseneck Microphone and Olympus DS-5000 Recorder**

HTH Engineering, Inc. is proud to present the **Start-Stop® Microscope Hands-Free Dictation System.**

**It's the perfect tool for Pathology and Research Dictation where hands and eyes need to be focused on your work.**

- Wide-spaced pedal controls Record/Pause, Listen/Rewind, and "NEW" dictation functions
- Clear, digital dictation with 18-inch Sensitive gooseneck microphone and unidirectional pickup pattern, even up to 2 feet away from the end of the microphone.
- Listen to your dictations through the Olympus DS-5000 Digital Recorder's speaker, or through optional headphones
- Near-instant download of dictation to any transcriptionist (local or via internet) by flipping a single "DICTATE/DOWNLOAD" toggle switch, using the included COMM download kit.
- Dictation can be automatically sent from your local PC, or to any PC located up to 130 feet away with CAT 5 cable, where it's then automatically transferred to your transcriptionist.
- Transcriptionists will automatically receive your dictation via the local office network or via HIPAA-compliant email or FTP if located remotely.

## Included Components

GN-1 Gooseneck Microphone with Unidirectional Pickup and 10 foot cord

DS-5000 Digital Recorder with Cradle

COMM Download Kit

includes Qty 2 USB/Ethernet Converters (1 pair), Qty 1 Dictate/Download Switch, Qty 1 USB Powered Hub (modified-special).

Heavy Duty Footpedal with separate pedals for Record/Play, Rewind, and "New" file designation

Includes DS-5000 Digital Voice Recorder with latest firmware, 512MB microSD-Card™ removable media, CR10 Multi-function cradle/docking station, DC-A7 AC Adapter, BR403 Ni-MH rechargeable battery pack, USB Cable, [DSS Player Pro Dictation software](#) (latest version), User manual, Quick Reference Guide, and 1 year warranty plus Tech Support.

The Optional COMM Download Kit **allows Hands-Free Olympus Recorders to remain in their cradles without having to remove them for download.**

**Download happens near-instantly and automatically from the dictation workstation to the PC in the next room,** whenever you flip the waterproof toggle switch from Dictate to Download.

With the use of the COMM Download Kit, **there is no need to ever remove the recorder from its cradle.**

**Requires only Cat5 or Cat6 ordinary ethernet cable from the workstation, up to 130 feet away** from the receiving PC that's running Olympus DSS Player software.
