PC Voice Application Control

SpeechMike Classic Plus 5272

Dictate directly onto your PC.

The new SpeechMike Classic Plus gives you total control over your PC voice/dictation application in one lightweight unit. Record dictations directly onto your PC with the **familiar 4-Position Slide Switch**, ideal for ergonomic, single-handed control. The **scroll wheel** and the **trackball** allow you to precisely navigate through all of your PC screens.

The **four function keys** and two **trigger-style touch buttons** on the rear of the unit are fully programmable, giving you more control than ever before.

With the SpeechMike Classic Plus, you have total PC and dictation control at your fingertips.
